PART D

METHOD OF ASSESSMENT LANDSCAPING AND LIGHTING MAINTENANCE ASSESSMENT DISTRICT NO. 95-1

The special benefits that accrue to the properties in the Maintenance Assessment District are limited to those properties that abut an improved public street or which have been obligated by issuance of bonds for necessary public improvements (the "Improved Parcels"). Other properties in the Maintenance Assessment District receive only a general benefit from the work of improvements, and there is also some general benefit that accrues to the community as a whole. The total amount of general benefit from the improvements is determined to be less than 10% of the total cost thereof, and the annual cost attributable to general benefit is therefore less on a present value basis than the amount of the contribution to total costs made by the City of Milpitas in fiscal year 2001-2002. Accordingly, no property within the Maintenance Assessment District is assessed more than the proportionate special benefit conferred on that property.

The Improved Parcels receive a special benefit proportionate to their net acreage and thus they are assessed on the basis of total net acreage for all costs associated with the maintenance and installation of the Maintenance Assessment District improvements including incidentals, Engineer's Report, printing and advertising of assessment notices, County collection fees, legal fees and appurtenances with the following exceptions:

1. Parcel 5-7 (Sewer Main Pump Station) and Parcel 5-3C (Storm Pump Station) do not benefit from landscaping as much as other Improved Parcels because they are dedicated to municipal sanitary sewer and storm facilities use and will not be otherwise developed. Therefore, they are assigned a special benefit equal to 50% of the benefit accruing to other Improved Parcels.
2. Parcel 4-1B and parcel 5-6 are dedicated to open space and therefore, they do not receive any special benefit from the improvements, but rather they provide a special benefit.

The amount of assessment levied on each Improved Parcel in the maintenance Assessment District shall be in a range from \$.012 per net square foot to .03 per net square foot, with the exact amount to be levied in any given year to be determined by the budget for that year. \$.012 to \$.03 per net square foot are the amounts of the range of assessments for fiscal year 2001-2002, and these amounts shall be increased in subsequent years by the percentage increase from April 1st of the prior year to April 1st of the current year in the U.S. Department of Labor, Bureau of Labor Statistics, Consumer Price Indexes, Pacific Cities and U.S. City Average, San Francisco-Oakland-San Jose.

The assessment per net square foot in fiscal year 2000-2001 was \$.017. The range of assessments being levied in fiscal year 2001-2002, which could result in the Maximum Assessment shown below (which do not include CPI adjustment) represents an increase in the assessments.

Any such appeal is limited to correction of an assessment during the current or, if before July 1, the upcoming fiscal year. Upon the filing of any such appeal, the Finance Director shall promptly review the information provided by the property owner and if he/she finds that the assessment should be modified, he/she shall have the authority to make the appropriate changes in the assessment roll. If any such changes are provided after the assessment roll has been filed with the County for collection, the Finance Director is authorized to refund to the property owner the amount of any approved reduction.
